

## Oil Spill Pocket Book

The Ministry of Environment & NDU has published an Oil Spill Pocket Book for Mauritius in April 2006. The pocket book summarises all the necessary operational information from the national and regional oil spill contingency plans. It is designed to avail all relevant information handy to decision makers and also to oil spill combat personnel on site, in the event of an oil spill response.

Copies of the pocket book have been distributed to all relevant stakeholders.

Additional information on the Oil Spill Pocket Book is available at the ICZM Division of the Ministry of Environment & NDU
