

Ministry of Environment & Sustainable Development (MoESD)

Programme: Workshop/exhibition on low sulphur fuels and cleaner vehicles.

Venue: Clos St Louis, Domaine les Pailles

Date : 22nd and 23rd November 2010

Objectives of the workshop/exhibition are to:

- a) sensitize the public and diesel vehicle owners on the environmental and health benefits of low sulphur diesel;
- b) inform the public of the switch to 500ppm from 2500ppm diesel fuel ;
- c) sensitise the public and decision makers on the UNEP Partnership for Clean Fuels and Vehicles (PCFV) global sulphur diesel target of 50ppm and adoption of cleaner vehicles and vehicle technologies.

Workshop 22nd and 23rd November (9.00 -12.00)

The **workshop** is being organized by MoESD with the support of UNEP Partnership for Clean Fuels and Vehicles (PCFV) with the participation all stakeholders from the transport and related industries.

Exhibition 22nd and 23rd November (12.00 -16.00)

The exhibition will be open for the public at large and will comprise of the following:

- (1) Display new diesel vehicle generation.
- (2) Demonstration on tuning of diesel engine and display of critical spare parts.
- (3) Engine Lubrificants and new product (fuel additives) display by the local oil companies.
- (4) Demonstration of smoke meters by NTA and
- (5) Distribution of Fact sheet on vehicular emissions by MoESD
