Co-operatives Division - Commission for Health and Others - Rodrigues

Co-operatives can contribute in the generation of income, the economic democratization process and the strengthening of the foundation of the economy. They are instruments of social justice, whereby a substantial number of people, specially from the lower strata, may improve their standard of living.

Government's role is, however, limited to that of a facilitator in creating favourable and conducive environment for development of professionally managed co-operatives.

The Co-operatives Division facilitates co-operative development and aims at imparting quality and timely services with high standard of professionalism, integrity, independence, objectiveness, trust and confidentiality.

To promote functional and financially autonomous co-operative enterprises, enhancing economic, social and cultural needs and aspirations of their members.

Co-operatives in Rodrigues

The Co-operative Movement was introduced in Rodrigues on the 8th August, 1924 with the registration of the first co-operative under the name of Trefles Co-operative Credit Society Ltd.

The Rodrigues Cooperative Movement has, over the years, played a vital role in the organisation and upliftment of the quality of life of many Rodriguans. With time the Co-operative Movement in Rodrigues has expanded to other fields. It now groups 45 active societies with around 9254 members. The status of Co-operative Societies, as at 30th June 2010, are depicted in the table below:

	<u>Total</u>	<u>45</u>	<u>9254</u>	<u>151,615</u>

The present Rodrigues Co-operative Movement is composed mainly of:

I Savings/Credit Union Sector

In 1975 the Co-operative Credit Union (CCU) was introduced in Rodrigues to inculcate the spirit of savings, self-help and self-reliance amongst its members. Presently, there are three co-operative credit unions, which cover the whole island of Rodrigues, namely the United Development CCU situated at La Ferme; the Nassola CCU situated at Mont Lubin; and the Rodrigues Northern CCU situated at Port Mathurin.

These co-operative credit unions have contributed a lot in the improvement of the standard of living of many Rodriguans, who are deriving considerable financial support from their respective societies by way of loans at reasonable rate of interest.

II The Livestock Sector

There are 6 livestock marketing co-operative societies grouping some 1223 breeders.

The primary societies are affiliated to the “Federation des Associations Cooperatives des Eleveurs de Rodrigues Ltd (FACER), which imports animal feed, veterinary products and chicks and sell same at a very competitive price to the 6 primary societies to meet the needs of the cooperatives and the public at large.

III Consumers’ Co-operatives

The Consumers’ Co-operatives cater for a wide range of domestic commodities required by their members at competitive prices. The St. Gabriel Co-operative Stores Society Limited is being managed under the new concept of “Fair Price Shop” by the Mauritius Consumers Co-operative Federation Ltd

(MCCF). The St. Gabriel Co-operative Stores Society Ltd has a turnover of around Rs15m and the MCCF Ltd is contemplating to open another shop at Bay Lascar.

IV The Fisheries Sector

With a view to mobilising adequate funds to acquire boats and equipment, fishermen have grouped themselves into fishermen's co-operative societies. Presently there are 8 fishermen co-operatives regrouping 148 members.

The Rodrigues Seafarers Fishermen's Co-operative Society Ltd has been formed by a group of Fishermen from the (OPPR) "Organisation des Pêcheurs Professionnel de Rodrigues". Its main object is to undertake off lagoon fishing.

With a view to embarking on off-lagoon fishing, five new cooperatives societies were registered in 2009. The Assistance of the Food Security Fund has been sought to finance 75% of their projects and the remaining 25% of the cost would be met by the Fishermen themselves by means of loan capital.

V Food processing and Fruits Production Marketing Co-operatives

There are eight food processing and marketing cooperative societies in Rodrigues. They have been formed mainly by women entrepreneurs. These societies process vegetables, fruits, marine produces meat and others foodstuffs and sell the products to the public at large.

The Fruits Production and Marketing Co-operative Society Ltd was formed in the year 2005. Its main object is to develop the production and marketing of fruits in Rodrigues, more specifically to supply fruits for the school feeding project. These cooperative societies are playing a crucial role in the socio-economic development of the island.

VI Agricultural Cooperatives

The first agricultural cooperative society was formed in 1967 to help the planters in the marketing of mainly onions and garlic. At present, there are 6 agricultural marketing cooperative societies, which are affiliated with the Rodrigues Agricultural Marketing Co-operative Federation Ltd.

The main activities of the Rodrigues Agricultural Marketing Co-operative Federation Ltd are to provide transport, spraying and ploughing facilities to member clients.
