

Pointe aux Sables Recreation Centre for Senior Citizens

The Recreation Centre for Senior Citizens at Pointe aux Sables provides residential facilities to senior citizens in a safe and pleasurable environment.

During its nine years of operation, the Recreation Centre at Pointe aux Sables has been adding new facilities to its leisure complex such as a modern and spacious dining room, an industrial kitchen, attached toilet in 24 bedrooms, gas water heaters and provision of anti-allergenic quilts and pillows.

The recent conversion of 4 existing bedrooms into en-suite super deluxe air-conditioned bedrooms, aims at widening the range of products offered to our senior citizens.

The security of the residents is ensured through the provision of 24-hour security services and the services of nursing staff of the Medical Unit.
