THE COMPETITION COMMISSION HOLDS A PUBLIC HEARING ON IBL CASE ON 24TH AUGUST 2010		

Purpose

The Executive Director of the Competition Commission of Mauritius (CCM) has published his Final Report on the IBL *Consumer Goods' Sales Contract with Retail Stores* case on the 18th June 2010. The report concludes that some contract terms linking discount for Kraft Cheese to marketing activities for those goods are in breach of the monopoly provisions of the Competition Act 2007. This constitutes the findings of the Executive Director which in no case, constitute a final decision. It is now up to the Commissioners to take a decision and assess whether there has been any anti-competitive behavior on the part of IBL and if so, to impose remedies. To this end, as requested by the main party, a hearing will be held on the 24th August 2010. Any interested person has the right to be heard by the Commissioners during the hearing. Such persons should send their written representations to the Secretary either by fax, email or post by Friday 20th August 2010.
